Subject: API Paper on Dispersants for "Environmental Pollution"

Gentlemen,

Good Morning. API just completed development of and is in the process of submitting the attached paper to respond to a piece in the April 2013 edition of *Environmental Pollution* titled "Synergistic toxicity of Macondo crude oil and dispersant Corexit 9500A to the *Brachionus plicatilis* species complex (Rotifera)." Copyright laws preclude me from sending you a copy of the original article, however a link to it is as follows:
<http://www.sciencedirect.com/science/article/pii/S0269749112004344>.

Despite being able to show you the actual text of the *Environmental Pollution* piece, we believe that the information contained in our response is useful and informative and so wanted to make sure it was available to you for your use. If you have any questions about its contents, please do not hesitate to let me know. As always, we are more than welcome to come and sit with you to go over the contents and answer any of your questions in more detail. I hope this e-mail finds you well, and I look forward to talking with each of you in the near future.

Best,
Robin

Robin Rorick
